

LIFE ADVISOR EAP

What's Your Return on Investment and People?

On average, **94 percent** of employees experiencing substance abuse or emotional difficulties managed their personal problems and work/life challenges within the EAP, utilizing our solution-focused, short-term counseling process.

ULLIANCE SUCCESS STORIES

- A large client company, through its third-party administrator, reported a **\$2,869,769** cost savings in the area of mental/nervous and substance abuse benefits after implementing Life Advisor EAP.

\$2,869,769 cost savings

- With our Life Advisor EAP, a client company realized **\$27,000** annually by decreasing behavioral healthcare claims costs on its self-funded medical plan. These savings were over and above the cost of the EAP.

\$27,000 annual savings

- In just one year, a hospital recognized a **50 percent reduction** in its mental health and substance abuse claims by implementing our Life Advisor EAP.

50% fewer claims costs

- After just one year of implementing the Life Advisor EAP, a large international company had outpatient mental/nervous and substance abuse healthcare claims **25 percent below** their peer group.

25% fewer claims costs

At Ulliance, we help increase your return on investment and people in terms of cost, productivity, and relationships. What's **your** return on investment and people? If you're not sure, ask Ulliance.
